

Study Skills

LG: I will know how to organize and prepare
for a test

Passive Studying

- reading material
- Watch the teacher do problems

You are learning, but you are not fully engaged

Active Studying

- Practise problems
- Formatives

The difference? you are more engaged

Planning your studying

- make sure to study
- spread out the studying (maybe 15 -30 min every night)
- study with a friend if it helps you
- find an environment that works for you (nathan - quiet summer noisy ashley outside)
- get parents or teachers to help quiz you

Formatives and Summatives

↓
Practice
NO MARKS

↓
the real things
MARKS

Gives feedback
Questions will be like
the summative questions.
Good for studying

How do Teachers plan a unit?

Study Guides

- helps you study
- students make
- 1 page
- list all the important ideas from your unit
- give an example of all the important ideas

EX Science

3 states of matter

solid, liquid, gas

Assignment

I Will:

- Create a Study Plan
- Review my formative
- Practice problems
- Create a 1 page Study Guide
